## California State Championship 2005

Matches in Los Angeles tend to be on the lower keyed end of the spectrum. Assignments are made to the usual suspects and it all gets done. We have the occasional glitch but no showstoppers yet. Any AR types would end up cowering in a corner, but the system does work. Timers no longer exist in this neck of the woods. We had fourteen lanes for seventeen shooters and we tend to shoot on the fast side. The odd slow traffic is tolerated, just means lunch is a bit latter. Absurdly slow traffic may face a timer but it hasn't happened yet.

This year a fortuitous thunderstorm settled the dust and provided a bit of green to the summer parched landscape. Temperatures in the mid-seventies lower eighties with mild breezes meant perfect Field Target conditions. This year Bob Duncan and son Ken made the trip from Northern California. Terry Depew came in from Reno, Nevada and Bobby and Sandy, Corcorran kept the long running state rivalry going. Old school shooters Sevak Gregorian and Frank Garcia stopped by for lunch, which was ably prepared by VP Dave Fredrick, who dashed from firing line to grill, mmmm bratwurst. Congrats to Leo Hwong and his magic rifle. Doug Miller had blood in his eye and it showed in his open class scores. Bobby Corcorran just missed a shootoff and it would have been a classic with dedicated shootoff lanes for both open and piston class.
