4. Casey Robertson.....6

Piston

1. Bill Tramel.....17

2. Larry Pirrone.....15

3. Ron Jobbes.....7

4. Ed Curry.....4

5. Rick Rogers.....4

After an entire week of 100 degree temps we were greeted with overcast skies today. Then, part way through the match thunder and rain threatened to shut down the match. We all stepped under the canopies and waited it out and then continued what was a very challenging match with 10 mph gusty cross winds that required giant holdoff and buffeted the shooters body. IT WAS GREAT FUN.

Thanks to Matt for traveling all the way down from northern Cal to shoot his freshly minted USFT.

We have three matches left in the Heavens Ranch cup. I think we have reached the tipping point in open but hunter and springer are still too close to call. Perhaps one more match will tell the tale and we can order the name plates for each of the class trophy's. The final match in the series is the Christmas match but by November for sure it should be etched in stone.

Special thanks to those who came early to help out with setup and of course most everyone helped with take down.

Larry Pirrone
