7. Jose Nunez, HW 97, FM, RWS Superdome.....12

ALL CLASS TOP GUNS

1. Hector Alfaro
2. Bruce Adamson
3. Carlos Iglesias

It was an amazing day at Heavens Ranch in so many ways. Fantastic turnout. "interesting" weather. Great friends, Great fun.

the day started with some cold and drizzle that soon made way for billowy clouds and sunshine. Then came thje wind. with wind speed in excess of 10 mph the course was more challenging than usual. We had some very small kill zones (3/8" and 1/2") that required some serious concentration in the gusty winds.

I believe that the HR course is developing into a most challenging and interesting course. We

have 14 lanes now and room for more. We can go high angle. low angle. Flat. Shooters who shoot this course on a regular basis cannot help but improve their shooting skills.

The club is growing. Welcome to all the new shooters who came out today.

I also want to say THANK YOU to all who help me with setup and takedown. We had great help taking down the course today.

The next match will be at the Angeles Shooting Range on the 26th of February.

Larry Pirrone
Range Master,
Heavens Ranch facility
